Use of TB07696 Pipe Attachment Assembly with Model CLA-2720

With regard to the use of the above attachment with the CLA-2720, our engineer carefully reinvestigated this matter and found that the attachment was suitable for use with the CLA-2720 using any of 35 mm length one touch type Jetbroach cutters listed in the catalog No.Tk124. Therefore please disregard our letter of March 27, 2015 informing you that it cannot be used with the CLA-2720.

Please also note that the applicable pipe size described in the catalog No.Tk124 should be as follows:

Incorrect: Outside Dia. 48.3 to 323.9 mm
Correct: Outside Dia. 48.6 to 318.5 mm

In this regard we reconfirm that you can use the attachment together with the Models CLA-2720, WOJ-3200, LO-3550, WA-3500, and QA-4000 when a 35 mm or 50 mm length one touch type Jetbroach cutter is used.

We apologize for any inconvenience this may have caused you.
