December 2020

Subject: Changes in product code and package design for export products

We would like to express our sincere gratitude for your continued support.

This is to inform you that the product code and package design of export products will be changed for optimization of product management and identification between products for Japan (domestic market) and products for export (overseas market). The details are as follows.

1) Reason for change

Regarding products that have been sold in common, both in Japan and overseas countries, we are establishing new product codes and changing descriptions on the packages and instruction sheets to be written in international language such as English, which we will carry out in order to have our products operated safely and securely by users outside of Japan.

As a rule, the model names of those products will remain the same and will not be changed.

2) Time of change

The new product codes will be applied from the purchase orders received by our International Business H.Q., on and after 2:00 pm March 31, 2021 (Japan time).

3) Subject products

HI CUPLA 2-digit Series in Steel material and NBR rubber.

Linear pumps DP/DPA/DAH/DVH Series.

Consumable parts for Tools (Jetbroach, Hi-Broach, Punch & Dies, Files, Sanding paper, etc.).

(See attached list for details.)

*JETBROACH 50L (W) for stacked plates and HI-BROACH 26.5x25L are excluded.

4) Content of change

- Change of product code (See attached list).
- “For export” will be shown on the packaging.
- The product code will be shown on the packaging.

There will be no changes in the performance of the products caused by changing the product code.

5) The handling of products with old product codes

5-1. Products with the old codes shall be sold as far as they are available in the inventories of our distribution network. Purchase orders received by us after the time of change in Article 2) above will be handled as products with the new code.

5-2. Pertaining to products with the old codes on back orders received by us earlier than 2:00 pm March 31, 2021 (Japan time), we will ship them with the old codes even after the time of change in Article 2) above.

Should you require any further information, please contact our sales staff.

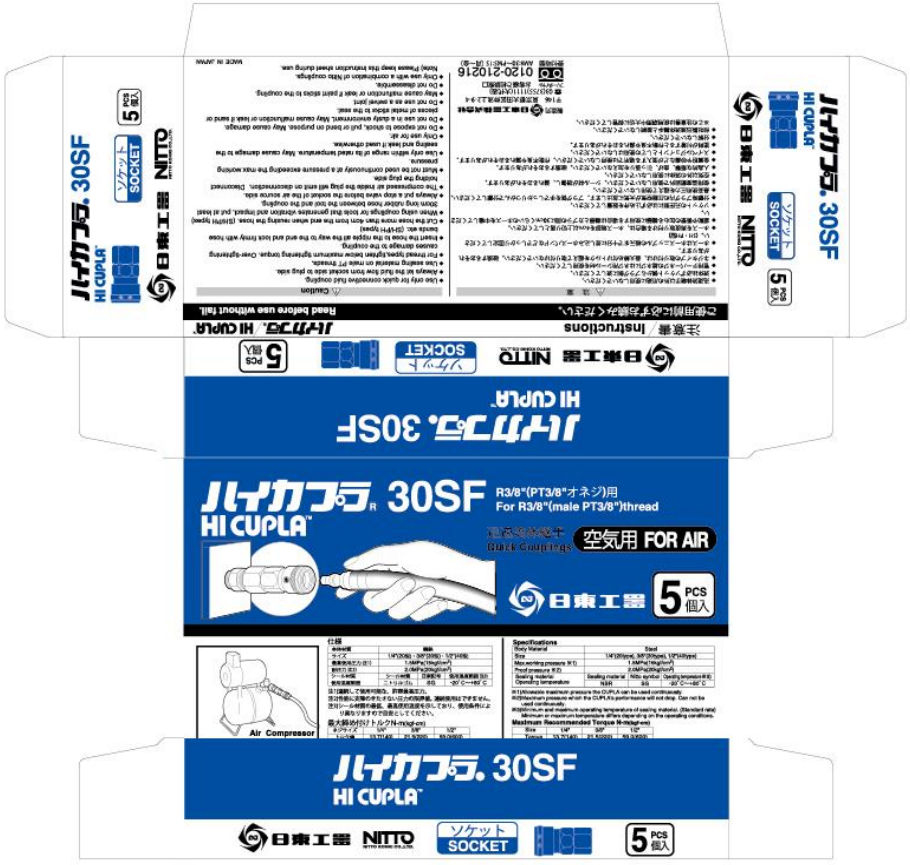

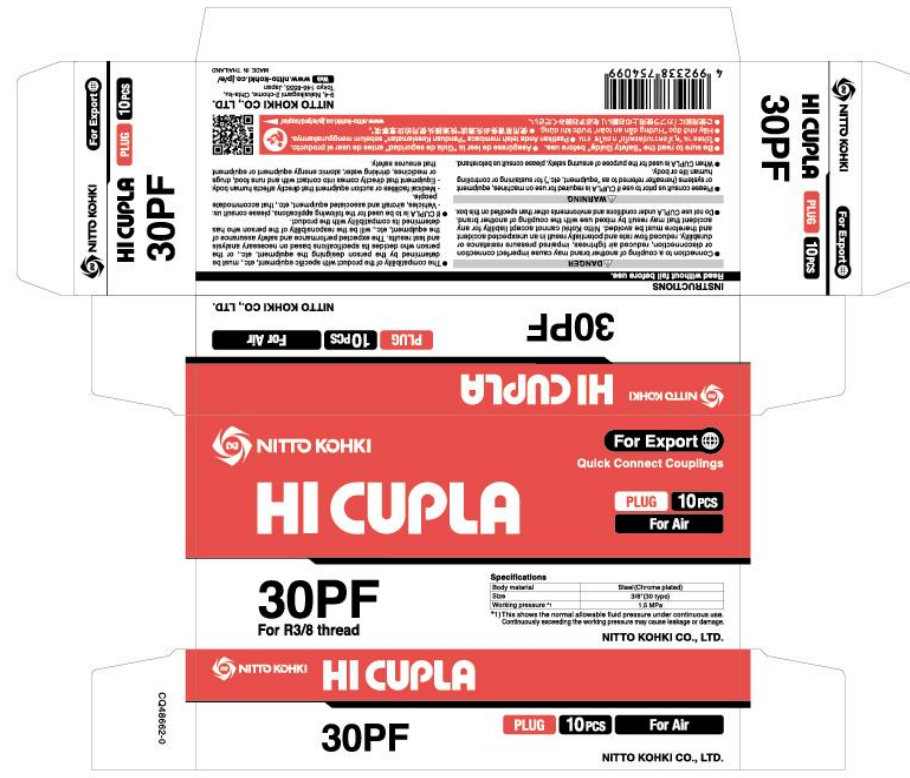

Kind regards,

Shoji Kasahara
General Manager
International Business H.Q.
Nitto Kohki Co., Ltd.
